MODEL #PDH14-K36

Euro Wall Mount Hood with Low-Profile Blower (V-Line)

European styling and clean geometric lines give this hood a refined architectural presence. Powerful Low-Profile blower technology uses centrifugal filtration to quietly capture smoke, grease and cooking vapors, while dishwasher-safe components simplify cleanup. Matching duct covers sold separately.

[1] CFM (cubic feet per minute) measures airflow. [2] Because Magic Lung® blowers use centrifugal filtration instead of traditional baffle or mesh filters, they move air more efficiently. When comparing to other brands, use Equivalent CFM to understand real-world performance. [3] Sones measure perceived loudness—lower values indicate quieter operation. Decibel values shown are approximate equivalents. [4] This model is not available with heat lamps. [5] Airflow (CFM) decreases as duct resistance (static pressure) increases. Values at 0.1"–0.3" SP reflect typical installed conditions.
